The latest Pantone Colors in CorelDRAW

The color palettes that are found in the Pantone Color Libraries are bespoke. Consider having the Pantone Formula Guide on hand which shows exactly how each color will print.

To access a specific Pantone Color Palette click the twirldown arrow alongside Pantone in the Palettes docker/inspector. Then choose the appropriate palette for your workflow. The example alongside shows the latest Solid Coated-V5 palette selected.

Using the CreateChart macro

CorelDRAW offers creative professionals an easy way to generate color charts for proofing and print devices. Select Tools Menu > Scripts. From the Scripts docker/inspector choose Visual Basic for Applications > ColorChartCreator > Macros > CreateChart. CorelDRAW will create a new document with the swatch library for testing on your specific print equipment.
