

How can I make the move to CorelDRAW Graphics Suite 2020? Frequently Asked Questions

Corel recently simplified its CorelDRAW product family purchasing options. We continue to offer both perpetual licenses and subscription options, enabling you to choose the solution that works best for your business and budget.

With these changes, upgrade versions are no longer available for customers running previous versions of CorelDRAW Graphics Suite. Customers who previously purchased Upgrade Protection will receive a CorelDRAW Graphics Suite 2020 perpetual license automatically.

As the CorelDRAW product lineup has evolved to meet the needs of today's businesses, the ways you can access the power of the suite have evolved along with it. With the latest version of CorelDRAW Graphics Suite, you not only receive powerful desktop software (for either Mac or Windows), but can also take advantage of a new web-based collaboration workflow in CorelDRAW.app Pro that makes it faster and easier to work with your team and clients.

Leveraging the best of the desktop and the cloud, CorelDRAW Graphics Suite 2020 is our fastest, smartest, and most collaborative graphics suite yet. With a commitment to deliver exceptional value, these extended capabilities come with new ways to purchase. Read on to learn more.

Q. Where did upgrade pricing options go?

Upgrade pricing ended earlier this year. Customers who purchased Upgrade Protection with CorelDRAW Graphics Suite 2019 automatically receive a perpetual license of CorelDRAW Graphics Suite 2020.

Corel may also provide exclusive, limited-time special offers to previous version customers.

Q. How can I move up to CorelDRAW Graphics Suite 2020?

Choose your preferred method of accessing CorelDRAW Graphics Suite 2020!

- 1) Subscribe to the full suite and rest assured that you are always using the most current version of the software with support for the latest technology. Plus, you'll receive access to the new, productivity-boosting collaboration workflow in CorelDRAW.app Pro. When subscribing to the full CorelDRAW Graphics Suite, you also enjoy the flexibility of a budget-friendly yearly payment option.
- 2) Buy a perpetual license that grants you the right to use your current software version, with no extra cost, as long as operating systems, devices, and technologies continue to support it. If you wish to boost your workflow with full access to the new cloud-based

collaboration features, you can sign up to access CoreIDRAW.app Pro from within CoreIDRAW.app.

Q. What subscriptions are available for CoreIDRAW Graphics Suite 2020?

With two subscription options, the choice is yours!

- 1) For maximum flexibility and the confidence of knowing you're always working with the latest and greatest version, subscribe to the full CoreIDRAW Graphics Suite. Use the software on your desktop (either Windows or Mac), plus get access to CoreIDRAW.app Pro, complete with full online collaboration options, for as long as your subscription is active.
- 2) Even if you choose a perpetual license, you can still subscribe to access the extended online collaboration features in CoreIDRAW.app Pro. Sign up is easy from right within CoreIDRAW.app. Of course, if you choose a perpetual license and do not wish to subscribe to the new online collaboration features, you can use the desktop software suite and still take advantage of the standard CoreIDRAW.app without any extra payment required.
