

CoreIDRAW® Volume Licenses for Enterprises and Government Agencies

Simple | Flexible | Cost-effective

When it comes to purchasing software, your organization deserves the flexibility to make the right choice for its needs, which is why we don't believe in a one-size-fits-all approach to licensing. You decide whether to obtain CoreIDRAW products as a perpetual license or a subscription.

We offer an easy to understand volume scale and discount regardless of the way you choose to purchase. And when compared to single box purchases or downloads, CoreIDRAW license agreements are not only less expensive, but provide your business with greater flexibility and increased security options that make installation and management easier on your IT team when combined with best-in-class CoreISURE Software Maintenance.

Lease or Purchase – The Choice is Yours

Volume Licensing – Perpetual Ownership

When you acquire CoreIDRAW perpetual licenses for your organization, you only pay for the software license once – there are no ongoing fees. By eliminating the need for purchasing physical boxes of software, you reduce costs and gain customized purchasing options along with improved control and compliance across your network.

Additionally, you can purchase CoreISURE Software maintenance as an extension to your perpetual licenses. This comprehensive maintenance offering provides what you need to succeed by offering support, advanced controls, exclusive offers and more. CoreISURE also guarantees that you are working on the latest version of the software at all times. You can choose to add CoreISURE at the time of purchase and can then appreciate these benefits immediately and throughout the lifetime of your CoreISURE agreement.

Volume Licensing – Software Subscription

CoreIDRAW subscription for volume licenses offers flexible annual payments based on the number of seats needed, providing the lowest up-front costs. The lower payment and access level ensure you are always using the most up-to-date version of the products without your IT team ever having to lift a finger.

Volume Discount Levels

Licensing for CoreIDRAW products begins at one seat and scales from there. Plus through our various contracts and agreements, government agencies and non-profit organizations have access to pricing that does not exceed Level 4 (251+ seats).

Level	Number of Seats
1	1-4
2	5-50
3	51-251
4	251-2500*
5	2501+

CoreISURE Software Maintenance – A Promise to Your Company's Future

The CoreISURE Software Maintenance program is designed to ensure you the greatest possible return on your software investment, while minimizing your risk. CoreISURE provides the support, resources, and peace of mind employees need to do exceptional work and produce extraordinary results.

What you get with CoreISURE

- **Up-to-the-minute upgrades** – CoreISURE guarantees you access to new upgrades of CoreIDRAW products the moment they're live – so your team will always be working with the most powerful, secure and current set of tools.
- **Discounting and price protection** – Growth and expansion are hallmarks of a company's success. Your software shouldn't penalize you for them — and with CoreISURE, it won't. Cumulative license discounts are included with your membership meaning your organization will benefit from further cost savings if additional licenses need to be added later on.
- **Centralized control & compliance** – CoreISURE gives you control over your software distribution and activity. Your IT administrator has the flexibility to provision, track and deploy the software based on your organization's security requirements, plus with a single key, can install multiple copies, to enable a smoother, faster, centralized deployment.
- **Version flexibility** – You don't need to have the latest version of your software to enjoy the benefits of CoreISURE. CoreISURE allows you to license the previous version of your CoreIDRAW product and upgrade gradually.
- **Global licensing and language support** – CoreISURE makes it easy for your business to respond to the demands of a global marketplace and workforce. You can request any available language you need, and your benefits will be extended to all licenses you acquire during your coverage period, without additional cost or effort.
- **Platform virtualization** – With the help of common virtualization technologies, CoreIDRAW products support desktop virtualization as part of maintenance. This offers you additional flexibility in deployment.
- **Quick start launch guidance** – New deployments executed correctly mean fewer issues downstream, so with CoreISURE, and a dedicated team guiding you step-by-step through the launch process, you'll be set up for success from the get-go.
- **Invite-only opportunities** – With CoreISURE, you'll have access to exclusive webinars, training sessions, events and more, led by internal experts and real-world power users who can help you develop your skills, build your network and maximize your software's potential.
